**BUILDING MISHICOT CUTOFF ROAD**—County crews are at work building a cutoff road from County Trunk B north across the East Twin River west of the village of Mishicot. The new highway connects with Highways 147 and 163 at the west edge of the village. The old route of B turns at a sharp angle to the east and continues to join State Trunk Highway 147 southeast of the village. View looks south with a new bridge in the foreground.
